To The Nursery Trade

In presenting our 1951-1952 list to our customers, we want to take this opportunity to thank you for the liberal patronage which you have given us in the past, and to solicit your continued patronage for the coming season. We suffered severe losses from the eighteen degree below zero temperatures of last season, so our list is not as complete as to varieties and sizes as we would like, however we do have a lot of good stock to offer this season, and we cordially invite you to call on us and see this stock in the fields. Much of our stock was damaged to the extent that it had to be sheared back severely, and a great many of our broad-leaf evergreens had to be cut back virtually to the ground. This has resulted in a shortage of the larger sizes, but has also produced an unusually compact and heavy lot of stock. We believe you will like it, and we invite your inspection.

Terms: Our terms are cash before shipment or c.o.d., unless credit has been established with us before shipping date. Of course, if satisfactory references are furnished and time allowed for investigation, we allow the usual terms of net in 30 days. Accounts that are not paid within 30 days from date of invoice will be charged 6% interest after that time.

Quotations: The prices quoted in this list are for car-load or truck-load orders only unless the stock is picked up at the nursery by your truck. We do not box or otherwise pack stock for shipment, except bare-root deciduous stock, which will be baled or boxed at cost. On all orders for less than ten of a size or variety, an additional charge of 20% will be made.

Delivery: We have available a number of trucks which we have under lease, and we can deliver trailer-loads of 20,000 to 25,000 pounds at a cost of forty cents per mile, and we also have access to a large number of public carrier truck lines which reach practically every part of the country. In addition, we are located on the Southern Railway, and can ship by rail freight.

Broad Leaf Evergreens

(B&B unless otherwise noted)

	Each Per 100
Abelia Edward Goucher	
15/18 inch	\$1.00
18/24 inch	1.25
